SenDEC Corporation Receives 2006 Vision of Excellence Supplier Award From Hand Held Products, Inc

SenDEC Recognized For Outstanding Customer Service and Commitment To Quality

SenDEC Corporation is the recipient of the 2006 Vision of Excellence Supplier Award from Hand Held Products, Inc. SenDEC received the award at the Vision of Excellence (VOE) Ceremony hosted at Hand Held Products' global headquarters in Skaneateles Falls, NY on September 8. The VOE is an annual event that recognizes standout employees, suppliers and customers of Hand Held Products and was attended this year by approximately 800 of their employees from around the world.

"SenDEC is receiving this award in recognition of their customer service, commitment to quality and partnership SenDEC and Hand Held Products has formed over the past six years. We acknowledge and reward SenDEC for its efforts in helping us to be successful", stated Kevin Jost, President and CEO, Hand Held Products.

Hand Held Products is a worldwide leading manufacturer of image based data collection systems for mobile, wireless, and transaction processing solutions. SenDEC supplies contract electronics manufacturing services (EMS) to Hand Held Products including circuit board assembly and box build (final product) assembly for peripherals of their popular Dolphin® Mobile Computer portfolio.

SenDEC was selected from the nominees to receive the 2006 VOE award by best exemplifying the award criteria, which includes:

"A supplier that demonstrates continuous quality improvement and provides Hand Held Products with rapid customer service, timely root cause and corrective action responses and institutes long term preventative actions to build quality into its products or services. A supplier that makes an impact on the quality of products and services provided by Hand Held Products to its customers."

Ken Fiske, President and CEO of SenDEC commented, "There is no greater re-affirmation than to be recognized at this level by well managed, rapidly growing customers such as Hand Held Products. This is a true honor and we look forward to growing what has become a very successful partnership."

About SenDEC Corporation

SenDEC is one of the fastest growing companies in the Upstate New York area and is organized into two main business units: the Contract Electronics Manufacturing (CEM) Group and the Products Group. SenDEC's CEM Group provides comprehensive electronic manufacturing services (EMS) including: design, prototype, PCB (printed circuit board) assembly, electromechanical assembly, test engineering, rework, material management and turnkey box build services. Its client base includes startups, mid-sized companies and Fortune 100 corporations worldwide serving the commercial/industrial, consumer, medical, military, and telecommunication markets. In an industry marked by offshore outsourcing, SenDEC's CEM Group offers an experienced, onshore alternative that can deliver higher quality at lower total cost – giving customers a competitive edge. The SenDEC Products Group manufactures its own family of digital monitoring and display devices that include solid-state electronic hour meters, tachometers and engine monitors for the industrial, home & garden and racing industries to name but a few. These are marketed under the SenDEC name as well as private labeled to OEMs (original equipment manufacturers) and through its distributor network around the world. While SenDEC's CEM and Product Groups operate separate lines of business, they share the commitment to quality and customer service that has been a SenDEC tradition for over 30 years.
